

## **ANPATH GROUP, INC. ANNOUNCES SELECTION OF EQUINE PRODUCT BY DOVER SADDLERY, INC.**

**For Release: Immediate**

**MOORESVILLE, NC (November 24, 2008)** Anpath Group, Inc. (OTCBB: ANPG), reported today that its wholly owned subsidiary, EnviroSystems, Inc. (ESI) announced that Dover Saddlery, Inc. has selected its equine care product, EquineTru<sup>®</sup> Skin & Hoof Treatment, for sale through its catalog, internet catalog and company-owned retail stores, beginning March 2009. Dover Saddlery, Inc. ([www.doversaddlery.com](http://www.doversaddlery.com)) is the largest direct marketer of equestrian products in the United States, through catalogs, an on-line catalog and company-owned stores. Dover expects 2008 revenue to exceed \$81 million.

Anpath Group President & CEO, J. Lloyd Breedlove, stated, "Because of Dover's large distribution channel and sales volume, numerous manufacturers of equestrian products solicit selection of their products each year. We are excited that Dover's annual product review committee has chosen to distribute EquineTru<sup>®</sup>." Mr. Breedlove explained, "Dover has a long history of serving the equestrian community with high quality products and progressive customer care. In fact, Dover's website was named one of the Top 50 Retail Sites in 2006 and its customer-friendly characteristics provide a quick, easy and informed shopping experience. The distribution of EquineTru<sup>®</sup> through Dover's channels makes EquineTru<sup>®</sup> readily and easily available to a large customer base," concluded Breedlove.

EquineTru<sup>®</sup> Skin & Hoof Treatment, a multipurpose antiseptic solution, safely prevents and eliminates persistent and often debilitating skin and hoof ailments caused by micro-organisms. The product's active ingredient, Parachlorometaxyleneol (PCMX) has been widely used as an antimicrobial in surgical hand and skin scrubs, antiseptics and disinfectants. It is also successfully used as a topical antiseptic for skin and mucous membranes, an antimicrobial in cosmetic formulations, and as a fungicide in a variety of applications. EquineTru<sup>®</sup> Skin & Hoof Treatment has been reviewed and cleared for market by the Center for Veterinary Medicine (CVM) a division of the U.S. Food and Drug Administration (FDA). Further, its use is permitted for United States Equestrian Federation and Federation Equestre Internationale (FEI) regulated competitions.

The equine market is an important part of the animal health market. An economic study conducted by Deloitte Consulting LLP for the American Horse Council Foundation in 2005 reports the equine industry contributes more than \$25 billion to the annual U.S. gross domestic product with over 9.5 million horses in the U.S. (60% involved in showing and /or recreation), and more than 2 million horse owners. American Sports Data reported that over 5.6% of the U.S. population or 16.8 million people ride horses, which exceeds participation in any other outdoor sports - including downhill skiing and mountain biking. Another study showed 10% of U.S. households were involved in riding, 5% involved at one time and another 18% wanting to be involved. It is estimated that at any given time 1 of 10 horses suffer from either skin or hoof ailments resulting in an annual health care cost to horse owners of several hundred million dollars. EquineTru<sup>®</sup> Skin & Hoof Treatment is poised to satisfy customer requirements with its ability to safely prevent and/or eliminate these ailments with a technology not currently available.

### **About Dover Saddlery, Incorporated:**

Dover Saddlery, Inc. (Nasdaq: [DOVR](http://www.doversaddlery.com)) is the leading multichannel retailer of equestrian products in the United States. Founded in 1975 in Wellesley, Massachusetts, by United States Equestrian team members, Dover Saddlery has grown to become The Source<sup>®</sup> for equestrian products.
