

ANPATH GROUP, INC. & SMARTPAK EQUINE, LLC ANNOUNCE DISTRIBUTION AGREEMENT

For Release: Immediate

MOORESVILLE, NC (September 26, 2008) Anpath Group, Inc. (OTCBB: ANPG), reported today that its wholly owned subsidiary, EnviroSystems, Inc. (ESI) has entered into an arrangement with SmartPak Equine, LLC to distribute its equine care product, EquineTru® Skin & Hoof Treatment through the SmartPak catalog and online store (www.smartpak.com).

EquineTru® Skin & Hoof Treatment, a multipurpose antiseptic solution, safely prevents and eliminates persistent and often debilitating skin and hoof ailments caused by micro-organisms. The product's active ingredient, Parachlorometaxylenol (PCMX) has been widely used as an antimicrobial in surgical hand and skin scrubs, antiseptics and disinfectants. It is also successfully used as a topical antiseptic for skin and mucous membranes, an antimicrobial in cosmetic formulations, and as a fungicide in a variety of applications. EquineTru® Skin & Hoof Treatment has been reviewed and cleared for market by the Center for Veterinary Medicine (CVM) a division of the U.S. Food and Drug Administration (FDA). Further, its use is permitted for United States Equestrian Federation and Federation Equestre Internationale (FEI) regulated competitions.

J. Lloyd Breedlove, President & CEO of Anpath Group stated, "We are pleased to be associated with SmartPak Equine, a highly regarded supplier of animal care products known for its innovative products, dedication to customer care and concern for the environment; principals that are highly valued by EnviroSystems. Our association with SmartPak will prove beneficial for both parties as well as our mutual customers and the horses they care for each day."

The equine market is often under appreciated as an important part of the animal health market. The economic study conducted by Delotte Consulting LLP for the American Horse Council Foundation in 2005 reports the equine industry contributes more than \$25 billion to the annual U.S. gross domestic product with over 9.5 million horses in the U.S. (60% involved in showing and /or recreation), and more than 2 million horse owners. It is estimated that at any given time 1 of 10 horses suffer from either skin or hoof ailments resulting in an annual health care cost to horse owners of several hundred million dollars. EquineTru® Skin & Hoof Treatment is poised to satisfy customer requirements with its ability to safely prevent and/or eliminate these ailments with a technology not currently available.

About SmartPak Equine

SmartPak Equine, LLC was founded in 1999 with the purpose of simplifying the administration of nutritional supplements and medications to horses. The patented SmartPak™ supplement feeding system has been adopted by thousands of barns and horse owners across the country, who value knowing that their supplements will be fed correctly. It has been embraced by riders from all disciplines and all levels, including seven Olympic medalists. In addition to the SmartPak(TM) supplement system, the company offers a broad line of horse health, rider items, canine supplies, as well as equine and canine pharmacy items sold through the company's catalog and web site. In 2006, SmartPak Equine, LLC was named to Inc. Magazine's list of the 500 fastest growing private companies for the second straight year and is the only equine company ever named to the list. The company has also been honored with a Best Bosses award presented by Fortune Small

Business and Winning Workplaces. SmartPak Equine also operates a retail store in Natick, MA. For more information, visit www.SmartPak.com.
