

## **ANPATH GROUP, INC. AND WORKGREEN TECHNOLOGIES, INC. LAUNCH WORLDWIDE SPORTS VENUE SAFETY EFFORT**

### **For Release: Immediate**

MOORESVILLE, NC (October 24, 2008) Anpath Group, Inc. (OTCBB: ANPG), reported today that its wholly owned subsidiary, EnviroSystems, Inc. (ESI) has entered into an agreement with Workgreen Technologies, Inc. of Newport Beach, CA. to distribute its disinfectant cleaner, EnviroTru® to sports venues and arenas worldwide.

Workgreen Technologies, Inc. (Workgreen) is a green audit, execution and unbiased certification company. Workgreen sets and upholds standards for organizations to work in an environmentally conscious manner while positively impacting the bottom line. Workgreen's mission is to help create a healthy, sustainable green world for our children and generations to come through education and advocacy in preserving the earth.

ESI reported that Workgreen will be the exclusive distributor of EnviroTru® Disinfectant and Deodorizing Cleaner to sports venues and facilities including boxing, wrestling, mixed martial arts (MMA) and those with artificial surface fields. J. Lloyd Breedlove, President and CEO of EnviroSystems, Inc., stated, "Workgreen is very aggressive in their efforts and clearly shares our mission to provide innovative infection prevention, decontamination, and health science technologies, products, and services."

EnviroTru® is a multi-purpose disinfectant, sanitizer and deodorizing cleaner effective against numerous organisms, including MRSA, and also meets requirements for Toxicity Category IV (minimal effects noted, no precautionary or first aid statements required; no harmful dermal, ocular, inhalation or ingestion effects), which is the lowest toxicity level available on the market today. EnviroTru® needs no warning label and does not require protective clothing, gloves or special ventilation, and has passed the AMS 1452A, AMS 1453 and Boeing D6-7127 specifications for non-corrosion and materials compatibility.

According to Patrick Fairon, CEO and Co-Founder of Workgreen Technologies, Inc., "We selected ESI and EnviroTru® after an extensive search for a product with the ability to eliminate a wide range of microorganisms while offering a favorable health and environmental profile. The stringent protocols met by ESI and EnviroTru® were an important factor in our selection process. The strategic partnership with ESI will allow us to offer our customers an environmentally friendly alternative to the harmful and adverse effects of bleach and other cleaning agents currently used in various sports venues while allowing them to protect against MRSA, VRE and Staph. EnviroTru® is very effective on equipment, lockers, mats, floors and other surfaces within sports facilities." Patrick Fairon continued to say, "We are living in a green world and ESI and EnviroTru® will have a profound impact on athletic facilities and athletes by helping to reduce the possibility of the transmission of infectious diseases in these venues.

Mr. Fairon stated, "We believe the new distribution agreement with EnviroSystems, Inc. could potentially represent sales of \$8 to \$10 million during the three (3) year term of the agreement. Our sales projections are based on the existing sports arenas and other venues and the anticipated growth of that market segment. We believe there is a sizable upside moving forward."

### **About Workgreen Technologies, Incorporated:**

Workgreen Technologies, Inc. is committed to the execution of Green Initiatives in the workplace. Workgreen provides assistance to businesses in choosing and implementing the best green centric products and services available today.
